

NCP-AIN AI Fabric Pro Mega Lab Guide

1. Start Here

- open the topology 2 poster first
- use quick start second
- use the workbook for task-by-task build and troubleshooting

2. What This Lab Covers

- AI Ethernet fabric design
- dual-homed Ubuntu worker VMs
- EVPN and VXLAN overlay
- MLAG
- OSPF underlay
- IPv6 on cluster loopbacks, tenant VLAN gateways, and Ubuntu VM hosts
- edge eBGP
- RoCE-style traffic drills with Linux shaping

3. Important Limit

This lab is strong for architecture, control-plane, validation, and troubleshooting discipline.

It is not a true InfiniBand or ASIC-accurate PFC/ECN simulator.
